LUNCHROOM MEN GIVEN FLY ADVICE

and Means of Combating Evil.

CALLS POWER-DRIVEN FANS SEVENTH PRECINCT MEN BEST AID TO SCREENING

Health Department Official Sends

Open Letter to Proprietors of

Eating Establishments.

Thorough screening and the installation of power-driven fans in doorway openings are suggested by Dr. Arthur L. Murray of the District of Columbia health department as the most effective means of

prietors, Dr. Murray, who is supervising persons engaged in this line of business thould make themselves liable to prosecution by the health department for failure to observe the regulation requiring that food offered for sale shall be effect-

"Is it not possible to keep flies away from food?" he asks. "The answer to this question is that the number of flies to be where food is prepared and sold will be n direct proportion to the care exercised

quently treated with some good deodorant, such as chloride of lime, crude

Fifth, destroy any flies that may gain of fly poisons, sticky fly papers, fly traps, etc. These means of destroying the insects can be used to the best advantage during those periods of the day when business is the lightest and thus In using poisons, sticky fly paper and traps it should be remembered that flies frequent that portion of the premises where the most natural light is af-

They Feed Upon Refuse.

"Flies are peculiarly attracted to the food that tickles the palate of man," states Dr. Murray. "Unfortunately, however, their tastes are so diverse that they are not content with the food of man alone, but must also, for the sake of variety, visit and feed upon practically every source of refuse known. "In timing their visits to the food supplies of man they frequently are character of the filth or refuse they may be carrying at the time of their visits. Flies that may be found in a lunchroom or other place where food is sold may have only a short time before been visitors to the garbage pail in the rearry and the pile of refuse in the gutter the street, or may have just dropped in after crawling over an exposed sore on some unfortunate animal."

What the Law Requires.

The District ordinance designed to equire lunchroom proprietors to effectually screen the food that they offer for sale is as follows:

"Every manager of a store, market dairy, cafe, lunchroom, or any other place in the District of Columbia, where a food, or a beverage, or confectionery, or any similar article is manufactured or prepared for sale, stored for sale, offered for sale or sold, shall cause it to be screened effectually, or effectually protected by power-driven fan or fans, so as to prevent flies and other insects from obtaining access to such food, beverage, confectionery or other article, and shall keep such food, beverage, confectionery or other arcle free from flies and other insects at all times. Any person violating the provisions of this regulation shall, upon conviction thereof, be punished by a fine of not more than \$25 for each and every such offense. This regula-tion shall take effect from and after the expiration of thirty days immediately following the date of its pro-

Direct charge of the campaign to discover the man who is leaving pieces of sausage containing poison lying around on lawns and in the streets was placed n the hands of a committee, composed of Joseph W. Craig, chairman; Dr. James A. Emery of the bureau of an-imal industry of the Agricultural Department, A. J. Cummins, John S. Maury and Dr. Thomas K. Conrad. Mr. Craig acted as chairman of the meeting last night, C. E. Dawson serving as secretary.

Owners Relate Experiences.

A number of persons related their experiences, many of them being persons whose dogs had been killed. In one or two instances the man whose description was given had been seen very early in the morning. Those who saw him believed he was delivering milk, until the peculiar fact developed that wherever he was seen a dog died within a few hours. All the dogs showed the same symptoms, declared to be those of strychnine poisoning.

Pharmacy Inspector R. A. Sanders was present last night, and will aid in the hunt for the suspect. He has been devoting some of his time for the past three months to discovering where the drug is purchased, and by a system of elimination has brought his end of the investigation down to a very few sources of

principal danger of which Thevy Chase residents are apprehensive is that some child will find a piece of the poisoned sausage and be killed by eating a few days setting forth the symptoms of various poisons, and the "first aid signs appear. This is for the protection of the children, as well as an attempt to save any dogs which may be poisoned in

Adjourn Subject to Call.

After discussion of the problem by adjourned subject to call by the committee. Those who spoke were D. L. Selke, recent prosecutions under the regulation, although inspectors of the department have been instructed to keep on the lookout for violations.

W. T. S. Curtis, former mayor of Chevy Chase; Dr. James A. Emery, A. J. Cummins, Lieut. Giles, Capt. Schneider, C. E. Dawson, Charles H. Bates, and J. W. Dawson, Charles H. Bates and J. W raig. It was decided to ask the District authorities to make an immediate report of any licensed dogs found dead and to notify the owners immediately.

Nearly 500 have signified their attention to help in the effort to find the man responsible for killing the dogs,, and heir willingness to subscribe liberally toward the expense of accomplishing his object. Those present last night included W. T. Murphy. W. T. S. Curtis. Charles H. Bates, Dr. Thomas K. Conrad Ormsby McCammon, John S. Maury, F. Anderson, E. R. Lowndes, E. D. Ryerson, E. Hume Talbert, D.
